

NATIONAL HEALTH CENTER WEEK 2022

August 7 - 13, 2022

Community Health Centers - The Chemistry for Strong Communities

National Health Center Week (August 7 – 13) is an annual celebration with a goal of raising awareness regarding the mission and accomplishments of America’s Health Centers over the past five decades. This year HOMETOWN Health Center is honoring our patients, employees, consumer board members and our communities in special ways throughout the week.

We are thrilled to announce the future of HOMETOWN Health Center which will be a state-of-the-art facility and be a catalyst for community growth for many years to come. We will be unveiling this exciting project and are looking forward to your support.

Let’s come together this week to celebrate the role our Community Health Center, providers, staff and patients continue to have in persevering during the ongoing pandemic. You are invited to join us!

Mon. 8/8 - All Day

Patient, Staff and Community Appreciation Day

Stop by Newport and Dexter for giveaways, snacks, and a chance to win a Door Prize. Drawing held Friday.
